Hi Kevin,

We have a new due date for the ARRA IT grant (see chain). We are not pushed for time, however Ed is planning to cross the pond soon (fine wine and croissants) and we should plan to have the complete package to him early next week.

Gillian is out, so I don't know if you had a chance to review this.....

Could you let me know if you:

Have reviewed and have comments (please send to me)

Have not reviewed and want to comment and provide a time frame.

Thanks so much,  
Ann

**Importance:** High

Hi Kevin- Ed and Pat got back to us with their edits today, so I am attaching the most recent version of the narrative in the hopes that you have not started your review yet. Also attached is the abstract, as Ed separated the two pieces.

I cc'd you on my response to Ed's email, so you could review his general comments about the grant. I believe Dina and I have addressed them, and I've used track changes in the attached document so you can see how (basically, augmenting a paragraph at the end of current activities to restate our request for funds). Keeping in line with Pat's previous ARRA submission, I didn't "cap" bullet points as he suggested; however, pretty much all his suggestions were minor and incorporated.

Let me know if you have any questions.

Gillian

Gillian,

I am in DC, but should get able to review all today and certainly by Tuesday.

Thanks for the clarity around deadline, its the only thing that motivates me (excepting my keen interest in all things surveillance!)

K.

Kevin, Ed, Linda and Al-

The grant is due 4/21, which means Ann needs to get your edits by Tuesday morning and would appreciate your approval of budget as soon as possible.

Hi everyone-

Attached for review is the draft narrative for the ARRA grant to support electronic exchange of public health data.

Hi Ed,

Attached is the final draft of the narrative.

I appreciate your patience on this.

Thanks....Dina

Hi.

I've seen some emails regarding the narrative, which I believe will be sent to me today.

Haven't seen an abstract or budget yet.

Ed

Hi Ed,

Please see below. Do you have any issues?

I just received the budget "rough" and will work on today. Do you have an update on the status of narrative? Were you sent the abstract?

**Subject:** RE:

I agree. You can remove it from the budget. I will look through the narrative and make it reflects this change.

Thank you for sending me the budgets today.

I think you should reconsider naming IT vendors/contacts. Most of the IT contracts expire 6/30/10, and the named vendors may or may not be on the new contracts. The anticipated start date of this grant is 7/1/10

There is no harm in not naming a vendor. We simply notify agency when vendor determined.

If you agree, please remove specific vendor language from narrative and abstract, and let me know if you want removed from budget.
